

Iowa National Guard Officers Association

2020 Strategic Plan

INGOA 2020 Strategic Plan

1 September 2017

This strategic plan is intended to foster a foundation for the success of the Iowa National Guard Officers Association through 2020. As the INGOA leadership changes, this Strategic Plan will provide the continuity for decision making of the Board of Directors. It will still permit the INGOA president the flexibility to accomplish short term goals. The Mission and Vision together provide the energy and direction for INGOA. We are driven by the Mission and drawn forward by the Vision. To understand where you are going you must first understand where you are. An analysis of our strengths and weaknesses, as well as opportunities and threats, will help set the baseline for all else to be measured. Understanding core competencies of INGOA is the key to ensuring that our strategic plan focuses on the right areas and ensures we are meeting the expectations of our members and key stakeholders. Finally, measurable and concrete Goals, Objectives, metrics, and Strategies will ensure the 2020 Plan is an effective measure of success for years to come. This plan does not intend to replace the INGOA by-laws; instead it will complement them by establishing strategic focus.

I. Mission Statement

The mission of INGOA is to be the lead professional organization for the Iowa National Guard; enhancing all aspects of unit readiness through legislation, professional development and lasting partnerships with our stakeholders and collaborative members.

II. Vision Statement

The vision of INGOA is an Iowa National Guard that is mission ready and future relevant. To realize this vision fully, we must continue to grow our membership as one part of a balanced approach that includes also professional development and legislative effectiveness.

III. Strengths and Opportunities

INGOA has peaked in membership at 78%. In order to obtain the optimal level of 100% membership, the INGOA Executive Board together with the Area Presidents must utilize synchronized and tailored membership messaging and growth strategies. It is a shared venture that will not work without equal work input either level.

Our greatest opportunities lie in the ability to expand our service and outreach to our members and stakeholders. INGOA has a positive connotation amongst the potential members and Iowa National Guard leadership, but there is room to expand our presence and relevancy to the Iowa National Guard. Building a culture that is openly supportive of the Association's efforts, will benefit both the Iowa National Guard and INGOA.

IV. Core Competencies

1. Legislative Involvement (LOE 1-1)

At its most core function INGOA is an entity that seeks to influence legislation and policies to increase the readiness of the National Guard and enhance the well-being of the members. As members of the military, there are restrictions on seeking changes to legislation outside the established legislative process. However, this process often lacks proper consideration on the impacts on National Guard. INGOA provides that avenue to establish priorities from grass roots efforts and take them with a united voice to our policy makers at the state and national level.

INGOA is only as strong as its membership. Membership comes in two forms; officers/warrants and corporate members.
